Define Problem Statements (Customer Problem Statement Template)

Date	30 September 2026
Team ID	3
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models

A well-articulated customer problem statement helps the team empathise with users and focus on what matters. Each statement below follows the template: *I am ... I'm trying to ... but ... because ... which makes me feel ...*

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A hobbyist storyteller or student writer with a story idea	Turn my idea into an illustrated comic I can share	I cannot draw and have no design skills	Hiring an illustrator is costly and slow	Frustrated and held back creatively
PS-2	A parent or teacher preparing stories for children	Create fun, custom illustrated stories quickly	Story writing, artwork and page layout need separate tools	No single tool joins text, images and layout in one flow	Overwhelmed and short of time
PS-3	A content creator experimenting with mood and visual style	Try different tones (funny, dramatic) and art styles for the same idea	Re-doing the story, art and layout by hand for every variation is tedious	Story tone and art style are not linked automatically	Uncertain and limited in my choices
