Empathy Map

Date	30 September 2026
Team ID	3
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models

The empathy map captures what our target user says, thinks, does and feels in relation to the problem: wanting to create a comic but lacking artistic skills, time or tools.

SAYS	THINKS
• "I have a great story idea but I can't draw." • "Can it look like anime? Or a funny cartoon?" • "I want to print it or send it to my friends."	• "Will the pictures match my story and my character?" • "Is it too complicated or expensive to make a comic?" • "Can I change the mood if I don't like the first result?"
AARAV Aspiring storyteller (college student, non-artist)	
DOES	**FEELS**
• Searches for comic makers and drawing tutorials • Writes story ideas in notes or chat apps • Tries several tones and art styles and compares the results	• Excited by the creative possibilities • Frustrated by lack of drawing skill • Delighted when the first panels appear, anxious about waiting

Persona name is illustrative; it represents the user types described in the problem statements.
